- Choose between full day, morning or extended day program
- Choose between annual or termly instalments
- No registration fee & no increase till graduation

Safari Curriculum

- We follow the Early Years Foundation Stage (EYFS) British Curriculum
- Our curriculum is flexible and suitable for young children. It is similar to Primary Schools allowing them to transition smoothly
- We follow child's interests when preparing our lesson plans. This child-centered approach results in children being independent thinkers and problem solvers as they grow up
- We believe that each child is unique and can lead their own learning journey
- We provide opportunities throughout the day for children to express their ideas, make links and ask questions
- We strive to provide all children with the best start to a journey of lifelong learning
